### Colvin & Moggridge Archive

#### AR COL/MOG

In 2021, the records of Colvin and Moggridge Ltd were deposited by the company as additions to the Brenda Colvin Collection. The records cover the projects undertaken by Colvin and Moggridge Ltd through the 1970s to the 2010s.

The collection mainly consists of project files (AR COL/MOG/PF) and drawing records (AR COL/MOG/DO). These records were arranged by subject and this order has been maintained. the subjects include:

A: Historic Parks and Gardens, including Blenheim Park.

B: New Parks and Gardens, including Wisley Botanical Gardens.

C: Countryside Projects, including White Horse Hill.

D: Reservoirs.

E: Rural Industrial Projects, including Gale Common Hill.

F: Urban Landscape Projects, including London's Royal Parks.

In addition to the project files and drawings, by Colvin & Moggridge there are project files for Hal Moggridge's projects apart from Colvin & Moggridge (AR COL/MOG/PF/G), there are a few statements of accounts (AR COL/MOG/AC) and documents relating to publicity, events and writings of the company, including a leaflet advertising the company (pictured left), as well as notes on lectures by Brenda Colvin and Hal Moggridge (AR COL/MOG/PU).

The Collection covers the year's 1960-2020.

The physical extent of the collection is 30 archive boxes, 3 plan's chest drawers of drawings, some oversized rolls of drawings.

Project files relating to Croome Park,  
Worcestershire [C&M 724]  
1998-2006

This project started as an abortive project in 1986 for Sun Alliance and London Assurance Company Ltd who sold Croome shortly after Colvin & Moggridge Limited were appointed. It was renewed in 1998 with Hal Moggridge acting as technical assessor for the Heritage Lottery Fund, a landscape restoration grant having been allocated to the National Trust.

Except 724/5, these analyses, mainly of views, were carried out to help the National Trust with their restoration work, with some later analysis of the design of Croome River; it seems, however, that HLF did not expect a technical monitor to give assistance to the recipient of a grant.

### AR COL/MOG/PF/D/2

Project files for Swincombe/Townleigh Reservoir [C&M 567]  
1970

In 1970 the proposal to construct a large reservoir at Swincombe in the centre of southern Dartmoor was under consideration by a parliamentary committee. On behalf of a group of objectors, co-ordinated by the Dartmoor Preservation Association, Colvin & Moggridge prepared an outline landscape design for an alternative reservoir north-west of Dartmoor at Townleigh (project 567), showing how this would fit into the landscape and provide recreation opportunities. This Landscape Report then compared for the parliamentary hearing the benefits and disadvantages of Swincombe and Townleigh. On the basis of cross-examination about Swincombe, before this report had been tabled, the parliamentary committee turned down the Swincombe reservoir proposal. In early 1976 Colvin & Moggridge were appointed landscape consultants for Roadford reservoir, a project similar to Townleigh in a neighbouring valley; this reservoir was constructed and filled by 1991.

### Explanatory Notes:

\*These notes listed above are for lectures given before 2006 at which date modern lecture technology with digital projection was introduced.

\*As none of the pictures on which these lectures were based are available, the only notes included are those which are sufficient to interpret the content of the lecture in the absence of illustrations.

\*Each entry starts with the date the lecture was given, month and year, followed in brackets by the original file reference number. Then the lecture title is quoted.

\*Notes for all lectures given 2007-2017 follow in two lever arch files. One has all the lectures about urban views and sky space between 2000 & 2013, the second all other lectures. For each lecture there are sheets of images showing all the illustrations used with notes and a disc of the images.

\*Lectures about Kelmscott Manor garden have been placed separately with the drawings etc of C&M's design for the garden at William Morris's country house.
