

Fun Friday Fledglings Craft

Kitchen Roll Magic

You will need:

- Kitchen roll
- Bowl of water
- Newspaper
- Permanent markers*
- Old towel

*To protect surfaces,
line with layers of newspaper.

Method

1. Take one sheet of kitchen roll and cut into 4 rectangles the same size.
2. Take one of the pieces of kitchen roll, with newspaper under it, draw a picture or message with permanent markers.

3. Now set up a bowl of water, water about 5cm deep and have your old towel ready too.
4. Layer up our drawings. With a blank piece of kitchen roll on top of your drawing, carefully place the layers into the water and watch your image appear.
Allow kitchen roll to dry on an old towel to make your image appear again in the water.
5. Experiment, try this with different layers. Here is Dot the ladybird, with 3 layers of kitchen roll.

6. Dot says 'after a fun creative session it is good to tidy up and wash up'
