

58 Mill Road, Danton

Dear Gran,

Today it was my first day going to camping. My mum signed up for camping and it was taking my breath away. At the end, I won the competition and was granted a woodcraft folk badge.

I was petrified as I never practised and even liked sports. I thought that education matters; as a result, I mustered all my courage and commenced the day. After I was ready, I had to climb on the horse and cart. I never rode it before I was stubbing my chin curiously, thinking how I would clamber on. Luckily, my dad came and carried me up. My heart was pounding fast; but I had to go to the camping.

When we got there, there were series of activities to do. I completed all of them and at the end, they held the woodcraft Folk badge. "This badge is to someone who was as fleet as a deer who is Adhraj De" answered the coach. I felt amazed and astonished. I felt I was their guardian angel as I held the badge in my hand. It was a miracle!

Thanks,

Adi
