

WALLIS & STEEVENS

How to search Enterprise for Drawings

Enterprise is our online catalogue. The majority of our catalogued material can be searched on here.

You can access Enterprise here: https://rdg.ent.sirsiidynix.net.uk/client/en_GB/special/

The screenshot shows a web browser window displaying the Enterprise University collections catalogue. The browser address bar shows the URL: https://rdg.ent.sirsiidynix.net.uk/client/en_GB/special/. The page title is "Enterprise: University collections catalogue". The main content area features a search bar with "Special Collections and MERL" selected, a dropdown menu set to "All Fields", and a "Search" button. Below the search bar, there are three main sections: "Welcome ..." on the left, "New titles at Special Collections and MERL" in the center, and "News" on the right. The "New titles" section displays a book cover for "The Worshipful Company of Basketmakers" by Barnes, Roger, with publication details: Author: Barnes, Roger, author; Published: 2019; ISBN: 9781627231666. A "Find this item" button is visible next to the book cover. The "News" section includes a "Resolved - problems with Lexis" notice, a "Last call for Store and Closed Access requests!" notice, and a "Restricted Library/URS entry for exam-time" notice. The footer of the page contains links for "Help", "About Enterprise", "Contact us", "Consult an item", and "Twitter", along with the copyright notice: "Copyright 2016 SirsiDynix - Enterprise Version 4.5 (36066)".

Our Wallis & Steevens drawings have all been catalogued. You can search for specific drawings using the drawing numbers found in the Drawing Registers (TR WAL DO2/1-2) or by searching for keywords. The following pages provide instructions on how to check if we have drawings listed in the Drawing Registers.

USING THE DRAWING REGISTERS

1. Locate the column with the engine number you are interested in. This might not be your engine number specifically but rather the model engine that your machine was built to follow.

2. Type "TR WAL DO1" in quotations marks followed by the drawing number or keywords into the search bar. If you are using the Drawing Register, you will need to search for the drawing numbers listed in the column of the relevant engine number.

3. If we have the drawing, the catalogue entry for it will appear or you may have to find the appropriate drawing from a short list of results.
